- ◇ Hauling
- ◇ Firewood
- ◇ Field Mowing
- ◇ Bush Hogging
- ◇ Driveway Installation

And more...just ask!

The Winter season is passing by, more rapidly than we can prepare for the coming busy seasons. Spring will be upon us very soon, according to the Groundhog. The improvements here at Almony's are continuing, vastly working on our maintenance, marketing, and much more.

Brian has been attending seminars and continuing education courses, filling his bucket of knowledge week by week. In January, Brian has completed Fertilization CE courses, updating him on information related to turf, shrub and tree care. There's new guidelines on Fertilization in the state of Maryland, which we will be adhering to in the coming season. The same guidelines will be followed for residents of Pennsylvania, although not regulated as of yet. We believe Pennsylvania will be in the very near future. Brian also attended and passed the written requirements for ICPI Certification, so he will soon be a Certified 'Interlocking Concrete Paver Institute' installer, valid in the United States. As a reminder, Brian is Certified by the states of Pennsylvania and Maryland for Lawn and Turf Fertilization, as well as Shrub and Tree Care. Almony's Property Maintenance, Inc. holds the Business Licenses for these services, under PA10708 for Pennsylvania and 30247 for Maryland. Almony's also holds the 'Home Improvement Contractor' License for Pennsylvania as PA010179, not required for us in Maryland. Almony's is also regulated by the Federal Department of Transportation under DOT 1131140.

This information may not seem all that interesting to some, but to others it's vital information in choosing the most appropriate business professional. Look wisely and investigate when hiring any professional!

Almony's continues to improve our technology year after year, for out in the field and in the office. In 2012, we upgraded our Landscape Design software. Landscape Pro is a well-known brand for design software, allowing for the ultimate in design flexibility. We use photo images taken on site, download them into the program, and create a 3D photo rendering of what your landscape can look like. These renderings provide you, our Client, with a visual design that will show design and details that some just can't picture.

Another tech-savvy tool for 2013 is our portable, PAPERLESS routing system installed in each truck. Our crews will be logging in and out of services on a mobile device, saving thousands of pieces of paper each year. Technology may not be our profession, but it's the wave of the future. We're also excited to be doing a small part to help the environment!

GET TO KNOW the team...

Carrie Almony! Born in 1983 and raised in Parkton, Maryland, she is the youngest and only girl in a family of six. She grew up in a family-owned lawn care business, patiently waiting to grow tall enough to ride and drive the lawn mower. At fourteen, she began working as a bus girl at the old Shrewsbury Family Restaurant and moved on to become the "snowball girl" at Mason Dixon Farm Market's well-known Snowball stand. She spent three years at Mason Dixon, where she learned the value in hard work, dedication and public relations. As a senior at Hereford High School, she was a work-release student, working two jobs and attending evening classes York Vocational School of Technology, obtaining her License for Nail Technician. After graduating in 2001, she moved on to an administrative position at Hereford Dental Health in Monkton, Maryland, as well as working part time as a Nail Technician in Shrewsbury.

By 2002, Brian and Carrie had spent three years in a loving relationship, working long hours towards their goals in life. In February, Brian asked for her hand in marriage, which she happily accepted. When March came, they purchased their first home together in Glen Rock and the dream started to come together even more. As the lawn care business grew, Carrie spent evenings and weekends helping Brian out in the field, after serving her patients in the office during the day.

In April 2004, the blissful wedding day arrived and the dream got bigger. The first born, daughter Cameran, arrived in August of 2006. Carrie worked in the office for Almony's as well as Hereford Dental Health through May of 2008. Brody, their son, came in to the family in July of 2008, at which time Carrie became a full time work from home Mommy! In her glory, their dream continued to grow. Carrie returned to the classroom in October 2008 and obtained her License as a Real Estate Salesperson in Maryland and Pennsylvania. She practiced for two years, then moved her license to referral

status, as Almony's was keeping her busy nearly full time.

Over the past few years, Brian and Carrie have worked hard to grow their business, but not in the manner that most people would assume. Carrie's main focus is to provide a higher quality of service for the existing Clients of Almony's. She believes that a business can be more prosperous through top-notch service and true dedication to a smaller number of clients, over having hundreds and hundreds of clients, providing a mediocre level of service. Some might say Carrie's a 'neat freak', others might say she's extremely organized and likes order. Brian often tells her she 'spends too much time cleaning'...but that's not an issue when he can find what he needs when he needs it! She's an over-achiever in certain areas, and asks for help in those she lacks. She enjoys the aspect of business and entrepreneurship.

As 2013 begins, Cameran being in first grade and Brody in preschool, Carrie has more plans to build her dream. In an effort to accomplish her life goals, she is now a part time student at York College of Pennsylvania, working towards obtaining her Bachelors Degree in Business. She admits it's going to be a struggle, being a full time mom and wife, a business owner and full time employee, and a part time student, but they will come in exactly that order. She is dedicated to everything she does, giving it her best and nothing less. Carrie's scheduled office hours through May are Mondays and Wednesdays 8:15am to 4:00pm, Tuesdays and Thursdays 1:00pm to 4:00pm and Saturdays 8:15am to 4:00pm.

Carrie feels blessed to have a loving and supportive husband, two beautiful, full of energy, and surprising day-after-day children, and support from a fabulous family and wonderful friends. She is excited for 2013 and knows it's going to bring many wonderful and prosperous things to so many deserving people!
